Ankit Singh

CSE '26 || Student at Parul University || Full-Stack Developer || Ex-Web Development Intern at Shadowfox || Tech Enthusiast || Problem Solver
Vadodara, Gujarat, India

Summary

I am a passionate third-year Computer Science Engineering student at Parul University, dedicated to mastering the art of crafting responsive and interactive web interfaces. With a strong foundation in web technologies, I have advanced my skills through both academic and practical experiences.

Currently, I am delving deep into full-stack development, honing my expertise in frontend frameworks like React, backend technologies such as Node.js and Express.js, and database management using MongoDB. I have built diverse projects and actively participated in hackathons to sharpen my problem-solving abilities and stay ahead in the tech landscape.

During my internship as a Web Developer at Shadowfox, I collaborated with a dynamic team to design and implement modern, user-centric web solutions. This experience strengthened my skills in creating robust and efficient applications, reinforcing my passion for delivering exceptional user experiences.

Outside the realm of technology, I am an avid explorer, always eager to learn new skills and broaden my horizons. Whether it's diving into a new programming challenge or picking up a non-tech skill, I thrive on growth and innovation.

Experience

ShadowFox
Shadowfox Web Development Intern
October 2024 - November 2024 (2 months)
Vadodara, Gujarat, India
